

2nd Reading Survey, Hungary 2018

In this 2nd survey the participating students were the same who had previously taken part in the first survey, however their number has been increased. In addition to the changes, during the school year of 2017-2018 our school library was closed unfortunately permanently due to the lack of filling the librarian position. This year's statistics clearly signifies this situation as there were no students who would have ticked the answer of borrowing books from the library as their choice of getting hold on a book.

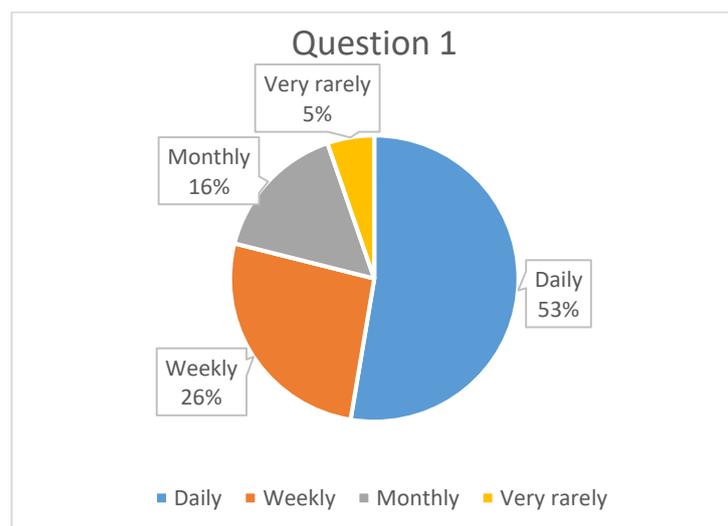

Number of students: 38

| | |
|--|---|
| Age of the participants: 23 students aged between 16 and 17 15 students aged between 18 and 19 | Sex of the participants: 27 girls 11 boys |
|--|---|
